FROGS 2.0 · OPEN GEOSCIENCE SERIES

OPEN SCIENCE WORKSHOP

Foundations of Open & Reproducible Science

WHEN

Wednesday, November 11, 2026, 10-4pm

WHERE

THH 202, UPC

WHO

all scientists & career stages

WHY

Learn how to live by Open Science practices

Free lunch for first 30 registrants

HOSTS

Prof. Julien Emile-Geay (Earth Sciences)
Dr. Deborah Khider (Information Sciences Institute)

PROGRAM

MORNING (10-12:30)

Foundations of Open Science

- What is open science, and why do we need it?
- Reproducibility & replicability
- Navigating funders & publishers

Deep Dive — choose among:

- Open Data
- Open Research Software
- Open Science Workflows

AFTERNOON (1:30 – 4)

Hands-On Applications

Apply the morning's principles directly to your own research.

- Bring a dataset, codebase, or manuscript-in-progress
- Work 1:1 with the facilitators
- Make your data, software and workflows open & reproducible
- Leave with concrete next steps

Bring your laptop!
